SUSTAINABILITY

2022-2023

Planet

Reduce our environmental footprint and act against climate change

Objectives :

- Reduce our CO2 emissions by 20% by the end of 2023
- Implementation of a tool to study our GHG emissions via LCA of our ingredients

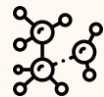

People

Ethics in our supply chain and well-being at work.

Objectives:

- 100% of new suppliers diagnosed as CSR
- 100% palm chain traceability for our new suppliers
- 100% responsible sourcing for our main suppliers
- 75% of employees trained and committed to CSR actions
- 90% "well-being at work" among our employees

Ingredient

Prioritize the selection of responsible ingredients.

Objective:

- Naturalness: increase the naturalness share of the cosmetic portfolio by 20%.
- Increase by 50% our raw materials from recycling, overcycling or upcycling
- Materialize a "health ingredients" range
- Towards a systematic "LCA ingredients" criterion
- Support eco-innovation: include "exemplary CSR" ingredients and/or suppliers
